Profit upgrade for 2023

Sparekassen Sjælland-Fyn upgrades expectations for the year's profit before tax for 2023.

The expectations for profit before tax have been adjusted upwards from a range of DKK 500-600m to a range of DKK 550-650m.

The upward adjustment is a result of the rising interest rate level, a continued influx of new customers and a very satisfactory development in credit quality.

Interim Report Q1 will be published as previously announced on 4 Maj 2023.

Kind regards
